## Objective

As a final-year Computer Science major with a strong foundation in Python development, SQL, ServiceNow, and AI technologies, I am eager to apply my programming expertise and problem-solving skills in an entry-level role. Had hands-on experience developing AI-powered applications using machine learning, natural language processing, and Agentic LLM concepts.

## Education

<b>Bachelors of Technology</b> , Pragati Engineering College	2022 - 2026
Coursework: Computer Science - Artificial Intelligence and Machine Learning (AI-ML)	<b>CGPA 8.41</b>
<b>Intermediate</b>	2020 - 2022
Tirumala Junior College, MPC	90%
<b>SSC</b>	2019 - 2020
Sri Chaitanya Techno School	99%

## Skills

**Programming:** HTML5 & CSS3, SQL, Python

**Core Knowledge:** Data Structures and Algorithms (DSA), DBMS, Operating Systems, Computer Networks, ServiceNow

## Certifications

- Certified Application Developer (CAD) - Servicenow
- Programming in Java - NPTEL
- Salesforce AI Associate, Agentforce Specialist - Salesforce
- Google Associate Cloud Engineer (ACE) - Google Cloud

## Internships

**Deloitte Data Analytics Virtual Internship**, Deloitte - Virtual Internship Mar 2025 - Mar 2025

- Completed Deloitte Data Analytics Virtual Internship with real-world datasets.
- Analyzed machine failures and workplace equality data, enhancing data processing and classification skills.

**Project Management Job Simulation**, Accenture -Virtual Internship Sept 2024 - Nov 2024

- Led a hypothetical client project, launching a new brand.
- Mapped project approaches and delivered status updates to leadership.

## Projects

**Mushroom Classification** github.com

- This project uses machine learning on the Agaricus Lepiota Mushroom dataset to classify mushrooms as edible or poisonous based on their physical characteristics.
- Tools used: Python, Scikit-learn, Pandas, Visual Studio Code, Git, GitHub, Streamlit Cloud

### AI Resume Scanner

- An AI-powered web application built with Flask and spaCy to help users build, analyze, and optimize resumes by identifying skill gaps, enhancing structure, matching job descriptions, and increasing job success chances.
- Tools used: Python, Flask, spaCy, Git, GitHub, Visual Studio Code

## Personality Traits

- Strong at Group Dynamics
- Adaptability
- Leadership Skills
